OBJECTIVES

Analytical and detail-oriented data professional with hands-on experience in Excel, Python, Power BI, and Tableau for data visualization and analysis. Passionate about supporting humanitarian, research, and community projects through data driven insights. Seeking to volunteer with Statistics Without Borders (SWB) to contribute to evidence based decision-making and impact measurement.

VOLUNTEERING EXPERIENCE & PROJECT EXPERIENCE

Volunteer Data Analytics Project-Open Library | August 2025- Present

- Analyzed Open Library dataset to explore trends in books, authors, and publishing trends.
- Cleaned, transformed, and processed large datasets to uncover insights and data quality.
- Built interactive Power BI dashboards, visualizing key metrics, trends, and reader engagement.
- Created KPI metrics to support data-driven decision-making for open-source library initiatives.

Volunteer-Center for Disability and Special Needs Research (CENDASNER), Nnamdi Azikiwe University | 2016-2017

- Supported students with disabilities in accessing academic materials and campus resources.

- Assisted in designing surveys and data collection tools for visually impaired students conducting research.
- Provided research support including literature reviews, documentation, and statistical guidance.

Skills

- **Data Tools:** Excel, Power BI, Tableau, Python (Pandas, Numpy, Matplotlib, Seaborn, Plotly, Bokeh).
- **Statistics:** descriptive and inferential statistics, KPI measurement, data quality assessment.
- **Data Management:** Cleaning, organizing, transforming, and reporting data
- **Communication:** Clear report writing, dashboard storytelling, and analytical presentation.

Education

B.LIS- LIBRARY AND INFORMATION SCIENCE,

Nnamdi Azikiwe University, Awka-2017

Certificates: Advanced Microsoft Excel for data analytics, Tableau, SQL, Power BI, Python.

Achievements / Impact Metrics

- Developed dashboards analyzing data from 200+ Open Library records.
- Improved data processing workflow, enabling faster dashboard updates.
- Generated actionable insights for Open Library dump files to support open-data decision.
